

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kenneth Green on September 9, 2008.

The application has been amended as follows:

Claim 1 (Currently amended). In a multiple drawer storage cabinet assembly having overhead tracks from which drawers are suspended and along which the drawers can be moved from storage within the cabinet to a location externally of the cabinet enabling access to the drawers, the improvement comprising:

each drawer including an outer support frame with a top member and a front side member and a back side member;

first and second roller apparatus secured to the top member in spaced apart aligned relation for receipt within a hanging guide, each roller apparatus having a stanchion, a pair of axles mounted to the stanchion, and a pair of rollers mounted on each axle ~~and~~ such that the two axles are arranged parallel to each other, the two rollers, one of each pair, are located on one side of the stanchion and in the same rotational plane, each said roller having a continuously curved convexly extending

Art Unit: 3637

peripheral edge with the first roller apparatus being secured adjacent said front side member;

a generally U-shaped hanging guide with two arms spaced apart sufficiently to receive a the pairs of mounted rollers therebetween, ~~the guide arms~~ lower edge portions of the spaced apart arms are formed facing each other to provide curved holders along which a the pairs of rollers can move and hang therefrom; and

a stop arm secured to a the stanchion of said first roller apparatus outwardly along the path of drawer movement away from the rollers and extending outwardly with respect to and beyond said front side member.

Claims 8-14 are cancelled.

Drawings

2. The drawings have been approved by the examiner for examination purposes.

Conclusion

3. The prior art made of record and not relied upon was considered pertinent to applicant's disclosure. Burstein describes a roller apparatus for a suspended article.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James O. Hansen whose telephone number is 571-272-6866. The examiner can normally be reached on Monday-Friday between 8-4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lanna Mai can be reached on 571-272-6867. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
